Subject: Thank you

Date: Tue, Feb 24, 2015 12:26 pm

Hi Mr. Martin,

This is to thank you again for the careful work you did on my roof last week. I certainly appreciated your thorough inspection and especially the care you took to explain how to assess a foam roof and what is needed to keep it at standards. I'm still a little embarrassed that I had a foam roof for 20 years and knew so little about foam and its care.

The job looks great to me. If I didn't know where they were, I would not even be able to find the places you repaired for me. The coating makes it look like a new roof. I am very grateful for the speed your crews worked and the great job they did of cleaning up. Everybody went the extra mile and showed enthusiasm for the job at hand. Your foreman on the day of washing was very courteous and also explained the process to me again. I was impressed and grateful that you were present for both days of the work and I was really tickled to meet your dad. You prove beyond doubt that a family business really invests and takes pride in what it does.

Thank you again!

Ron Perry
